PROVIDING 183 PRESCRIPTION EYEGLASSES TO STUDENTS AT
SANDY SPRINGS MIDDLE SCHOOL

Sandy Springs Rotary members with the school principal and staff and Vision to Learn optician.

Over the last 3 years Rotary working with Vision To Learn has provided vision screenings and over 600 prescription glasses to elementary & middle school students in Sandy Springs. Providing children with the glasses they need will improve test scores, the quality of their education, and the quality of their lives.

This project is made possible in part by a grant from **THE ROTARY FOUNDATION OF ROTARY INTERNATIONAL** in conjunction with Rotary International's Area of Focus on **Improving Basic Education**.
